

Daimler DS420 limousine

As well as owning and controlling a fleet of "vintage" Beaufords and modern S class Mercedes, we also have special arrangements with a number of classic-car enthusiasts who are willing to supplement our vehicular amenities with the best of the great traditional British cars from our recent past.

The Daimler DS420 can carry up to 7 passengers on fixed and fold-down seating and is ideal where a larger number of people need to be transported together. Presented in white, this traditional classic can accommodate the most voluminous of wedding dresses and is hosted by a uniformed chauffeur with a female attendant for the bride if required.

These cars can also be booked to deliver the bride and her consort together with the bridesmaids to the wedding venue, with alternative arrangements being made to transport the consort and bridesmaids to the reception after the ceremony with other guests as the new "Mr & Mrs" luxuriate in the ample space provided by this classic vehicle.

When booking this car please ensure that your precise requirements are made clear to us, as there is usually a mileage restriction on these older vehicles.

Please bear in mind that even though they are properly and regularly serviced, older vehicles such as these are more likely to break down. We must therefore refer you to our full terms and conditions at www.ChauffeurDriveSwansea.co.uk, which allows us to provide an alternative car if the need arises.

Cars shown may not be those actually available for hire
