

Mercedes SLK 2-seater roadster

Wedding-car hire companies can often provide a wide range of vintage motor vehicles to transport you on your wedding day. But we're not aware of any company in south Wales that can provide such an eclectic mix of *modern* motorcars for specialist events and wedding celebrations as *ChauffeurDrive Swansea*. This top of the range SLK creates just the right impression.

Our exhilarating SLK roadster is finished in burgundy red and is the epitome of sports car luxury with tan nappa leather seating designed for comfort and lateral support. Air conditioning enables different cooling temperatures for the left and right of the vehicle whilst driver and passengers alike will keep warm with the top down thanks to Airscarf® neck-level heating and the decadent heated seats.

Obviously this extravagant 2-seater mode of transport excludes the possibility of anyone other than the bride (or groom!) being transported to the church on time. But, synonymous with quality, reliability and above all, performance, either would look (and feel) cool arriving in this topless Mercedes beauty.

If you're looking for something original on your wedding day, you will appreciate the attention that this unconventional wedding-vehicle will bring. Watching the SLK roof as it slides under the bootlid is like seeing poetry in motion and may draw as many gasps from the assembled crowd as the beautiful bride.
